

Ledger & Lot

Finder's Fee / Commission Agreement

This Agreement sets out the fee arrangement between **Ledger & Lot** ("the Sourcer") and the Client in respect of property investment opportunities introduced by the Sourcer.

1. Fee Structure

Where the Client successfully exchanges contracts on a property introduced by the Sourcer, a sourcing fee of the agreed percentage of the purchase price (typically 2%, subject to written confirmation for each transaction) becomes payable to the Sourcer.

2. Payment Terms

The sourcing fee is due upon exchange of contracts, or upon completion where agreed in writing, and should be paid directly to the Sourcer or via the Client's conveyancing solicitor from completion funds.

3. Introduced Properties

A property is considered "introduced" by the Sourcer if it was first presented to the Client by the Sourcer, whether directly, via email, via the Ledger & Lot platform, or through a registered buyer notification.

4. Survival Period

This Agreement remains in effect for a period of 24 months from the date a property is introduced, meaning the fee remains payable even if the Client proceeds with the purchase through another party after this introduction.

5. No Double Fees

Where a property is introduced through both the Sourcer and a separate selling agent, the Client will not be liable for duplicate fees; this Agreement applies specifically to the Sourcer's sourcing service.

6. Dispute Resolution

Any dispute regarding fees payable under this Agreement will first be addressed through good-faith negotiation between the parties before recourse to formal proceedings.
