

Ledger & Lot

Property Sourcing Agreement

This Agreement is made between **Ledger & Lot** ("the Sourcer") and the individual or entity registering as a buyer ("the Client") for the purpose of identifying and presenting below-market-value residential and commercial property investment opportunities across England.

1. Services Provided

The Sourcer agrees to identify, research, and present property investment opportunities to the Client, including auction lots and off-market deals, based on the Client's stated investment criteria.

2. Client Obligations

The Client agrees to conduct their own independent due diligence, including but not limited to surveys, legal searches, and valuations, before proceeding with any property introduced by the Sourcer. The Sourcer does not provide financial, legal, or investment advice.

3. Fees

Where the Client proceeds to purchase a property introduced by the Sourcer, a sourcing fee shall become payable as set out in the accompanying Finder's Fee / Commission Agreement.

4. No Guarantee

The Sourcer makes reasonable efforts to verify information about each property but does not guarantee the accuracy of guide prices, condition, tenancy status, or investment returns. Estimated market values shown are indicative only and are not a substitute for an independent RICS valuation.

5. Confidentiality

The Client agrees not to share property details introduced by the Sourcer with third parties for the purpose of circumventing this Agreement. See the accompanying Non-Circumvention Agreement for further detail.

6. Termination

Either party may terminate this Agreement in writing at any time. Termination does not affect fees already due on properties introduced prior to termination.

7. Governing Law

This Agreement is governed by the laws of England and Wales.
